

Dear FCC: PLEASE STAY OUT OF THIS!!!! Don't succumb to the lobbyists and PACs. I pay good money to get the kind of programming that I can't find with AM or FM radio. The only reason that the NAB is petitioning is because they are threatened by a superior quality medium. I am paying for XM because traditional media has become passe, and the quality just isn't there anymore. FM radio has become the poster child for mediocrity and offers nothing unique. i urge you to reject the petition by the NAB to stop the Instant Traffic & Weather on XM.

Sincerely,

Mark L. Stram, MD
